LEADERSHIP MODULE DESIGN

Creation, Execution, Follow-Up

Experientia offers complete leadership modules for companies to reach sustainable success and, make your leaders ready for the VUCA world.

At eXperientia, we don't simply give leadership training, but also design complete leadership modules and leadership development programs for your company according to your values and targets.

We use our expertise in designing and executing leadership programs for our international clients from vast range of industries to improve leadership skills in their companies. We focus on all the necessary leadership subjects you need.

PROCESS

We analyze your situation and needs with your HR department to find out your leadership needs. We go through your employee survey results and use different tools to prioritize subjects. Then we design the most effective leadership module for your unique requirements, company values, and your industry dynamics.

We design modules at different levels and durations to implement leadership practices. We use different methodologies including classroom training, workshops and pre-works with full of real-life cases and role-plays to fully understand the concept.

SUBJECT EXAMPLES FROM THE MODULES

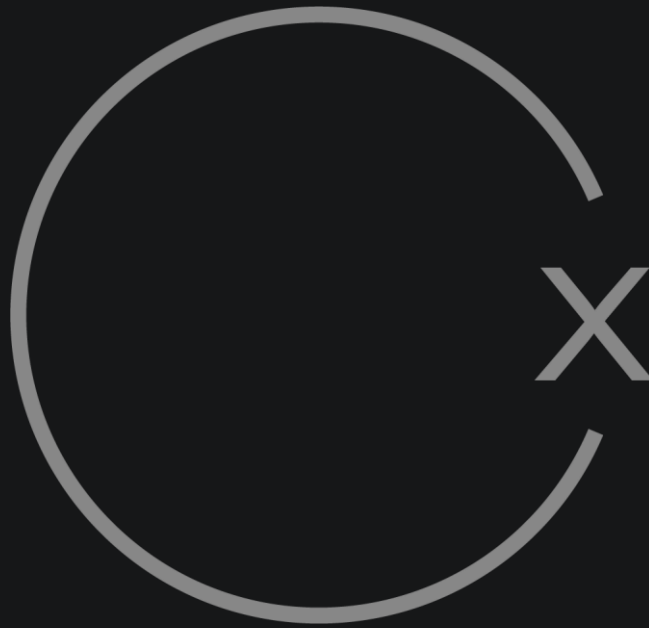

- Developing EQ for Leaders
- Effective Communication and Feedback
- Leadership Styles
- Self Leadership
- Conflict Management
- Leading Change
- Multi-Cultural Management and Diversity for International Companies
- Resilience and Self-Reflection
- People Management
- Time Management
- Prioritization and many more will be chosen uniquely for you...

EVALUATION

We don't simply execute modules but we also follow-up results together with you. We organize quarterly (3-6 Months) evaluation meetings with participants to check how it works and what to do for the next steps.

We want to walk together with you on the leadership journey, grow and develop your leaders together for your sustainable success.
